ABOUT

This pre-conference half-day (afternoon of Friday, November 24th) will provide practical workshops with clinical vignettes and case discussions to introduce and reinforce new treatment approaches to mental illness.

The second full-day (Saturday, November 25th) will include sessions from **international experts** of the University of Toronto, Department of Psychiatry. This year, they will provide psychopharmacology updates focused on Early Interventions, Schizophrenia, Anxiety Disorders, Bipolar Disorder, and Substance Use Disorders. The Saturday program will also include opportunities for case consultations and discussions with these experts during a “Lunch Liaison” session, where participants will select a table at which they can interact with a specific expert over lunch and discuss challenges in care.
